ABOUT US

What is Infinate360?

Infinate360 provides enterprise MarTech consulting and digital transformation services, helping organisations optimise customer data, analytics, personalisation and Adobe Experience Cloud technologies. Infinite360 Tech Academy is our learning arm: live and recorded programmes with hands-on labs and enterprise-style projects.

Founded by Pavan Babu Gandla

Fractional chief data architect and Adobe Experience Cloud specialist based in Bengaluru, India. Experience figures are as stated by the founder.

1

Consulting

AEP · RTCDP · AJO · CJA · Web SDK · data and AI architecture

2

Training

Career Accelerator · bootcamps · single-tool courses · corporate

3

Talent (C2C)

Vetted MarTech contractors for client projects

4

Centre of Excellence

Operating model, governance and enablement set-up

Remote delivery for clients in India and internationally. No offices, partnerships or client names are claimed in this brochure.

WHO WE SERVE

Three journeys, one platform

Enterprise Consulting

CDOs, CTOs, CMOs, MarTech leaders, architects

FLAGSHIP PROGRAMME

TOC: Career Accelerator (90 days, live)

Phase 1–2

- AEP core: XDM, datasets, ingestion, Profile, Identity, Query Service
- Web SDK, CJA and AJO: datastreams, connections, data views, real-time journeys

Phase 3–4

- RTCDP and activation: audiences, destinations, personalisation, validation
- Architect patterns: APIs, integration, security, environments, QA, monitoring

Phase 5–6

- Agentic AI and MCP: governed tools and agents
- Capstone and interview preparation

Projects

- Customer 360 data model
- Real-time transaction journey
- RTCDP activation
- CJA executive reporting
- Web SDK modernisation
- Agentic AI marketing assistant

Fee ₹60,000. Career mapping, resume and LinkedIn guidance included. Roles are target pathways; no placement is guaranteed.

TOC: Real-Time CDP and Journey Optimizer

RTCDP: Profiles

- Real-Time Customer Profile, merge policies
- Identity namespaces and graphs
- Customer 360 design

RTCDP: Activation

- Batch, streaming and edge evaluation
- Destinations, mapping, consent
- Activation QA and reconciliation

AJO: Build

- How AJO uses AEP profiles and events
- Event vs audience journeys
- Conditions, waits, personalisation, decisioning

AJO: Govern

- Suppression, frequency, consent
- Testing and approvals
- Journey reporting and troubleshooting

Interview focus: suppression audiences, event vs audience journeys, why a journey does not trigger.

TOC: Customer Journey Analytics and Web SDK

CJA: Setup

- Connections and datasets
- Person ID strategy
- Lookups and profile data

CJA: Analyse

- Data views, sessions, attribution
- Workspace, flow and fallout
- Adobe Analytics to CJA migration

Web SDK: Implement

- Edge Network, XDM data layers, datastreams
- Adobe Tags extension, ECID
- Page view and interaction events

Web SDK: Validate

- Consent and event forwarding
- Debugging and dataset previews
- Migration from AppMeasurement

Interview focus: CJA vs Adobe Analytics, data views, missing dataset debugging, Web SDK validation.

TOC: Adobe Analytics, Agentic AI & MCP, certification prep

Adobe Analytics

- Measurement plans and KPIs
- Variables, events, Adobe Tags, Web SDK
- Validation and QA
- Workspace reporting

Agentic AI & MCP

- Agents, planning and tool use
- MCP servers, clients, least privilege
- Human approval, logging, consent
- Marketing assistant capstone

AEP certification prep

- Read the current exam guide
- Core topics review
- Scenario and timed practice
- Independent of Adobe; no pass guaranteed

Pricing for single-tool courses is shared on request.

ENTERPRISE CAPABILITY

MarTech Centre of Excellence: how we set it up

1. Assess

- Current stack and skills
- Ambition and sponsors
- Use-case backlog

2. Design

- Operating model and roles
- Governance and consent
- Architecture standards

3. Build

- Reusable templates and data models
- Environments and release process
- Enablement and training

4. Operate

- Intake and prioritisation
- Quality and measurement
- Continuous improvement

What a CoE gives you

- One owner for MarTech standards, consent and data quality
- Faster delivery through reusable assets and trained teams
- A clear path from GCC capability to global delivery
